1. **Unacceptable Waste.** "Unacceptable Waste" means: (a) any material that is defined as a hazardous material or hazardous waste, untreated medical or infectious waste, radioactive waste, or unprofiled sewage sludge under any applicable law, regulation or permit ("Applicable Law"); or (b) any other material that may present an endangerment to the facility, to its employees or to public health or safety. Customer shall not deliver any Unacceptable Waste. If Customer delivers Unacceptable Waste, Operator may, in its sole discretion: (x) reject the Unacceptable Waste at Customer's expense; or (y) if Operator does not discover the Unacceptable Waste in time to reject it, as Customer's agent, dispose of the Unacceptable Waste at a location authorized to accept it in accordance with all Applicable Laws and charge Customer all direct and indirect costs incurred for its handling, transportation and disposal.

2. **Indemnity.** Customer shall indemnify, defend (upon request by Operator) and hold harmless Operator and its shareholders, partners, members, officers, directors, affiliates, agents, employees, successors and assigns (the "Indemnified Parties") from and against any and all liabilities, losses, fines, penalties, damages, costs and expenses, including reasonable legal fees, expert witness fees and litigation related expenses in any litigation, investigation or proceeding (collectively, "Losses"), that may be incurred as a result of death or injuries to any person, damage to property or contamination of or adverse effect on the environment, caused in whole or in part by Customer or its employees or contractors in disposing waste at the above-listed facility. This indemnity applies without regard to the negligence of any Indemnified Party, unless such Indemnified Party's sole negligence caused the Loss.
